- ☐ Final tack 48 hours.
- ☐ Compatibility: Use with Solvent, Eco, UV and Latex printers.

Durability: Standard conditions. Outdoor; 1-2 years. Indoor; 2 years+.

Applications: General Graphics and Signs: Stickers, Signs, Labels, Displays Graphic Boards, Retail, POP, Events, Tradeshows etc.

Properties: The product offers a Gloss or Matte print surface and Solvent/acrylic adhesive, great for mostly flat applications.

Handling: Avoid touching material or introducing dust and dirt on to print face. This can cause anomalies and artifacts when printed. Always store unused material wound tight in original packaging.

Printing: Suggested Media Setting Universal Self-Adhesive Vinyl. Depending on printing platform and RIP software; the suggested maximum ink load is 300%. Make sure that ink is dry when it reaches the take-up reel. An external dryer or heat lamp will accelerate drying.

Extreme heat can cause material to buckle. For best results calibrate media feed and bi-directional and optimum heater settings before using. 540 dpi, 8 pass offers a good balance between quality and speed.
