Applications: General Graphics and Signs: Stickers, Signs, Labels, Displays Graphic Boards, Retail, POP, Events, Tradeshows etc.

Properties: The product offers a Gloss or Matte print surface and Solvent/acrylic adhesive, great for mostly flat applications on to

Properties: The product offers either Gloss or Matte print surface and grey acrylic adhesive.

Handling: Avoid touching material or introducing dust and dirt on to print face. This can cause anomalies and artifacts when printed. Always store unused material wound tight in original packaging.

Printing: Suggested Media Setting Self Adhesive Vinyl. Suggested maximum ink load is 300% depending on printing platform and RIP software. Make sure ink is dry when it reaches the take-up reel. An external dryer or heat lamp will accelerate drying. For best results optimize media feed and bi-directional calibrations. *540-720 dpi, 8 pass, Bi direction offers a good balance between quality and speed (suggested heaters 40-45c).*

Installation: Product offers Air Egress technology resulting in a fast, bubble free application. Product is best for flat surfaces like sign panels.
