

DAF Imprint Permanent Self Adhesive Vinyl

4 mil White PVC Calendared Vinyl Film with Grey Adhesive.

Key Features & Benefits

- Finish: Gloss & Matte
- Roll Put-up: 60", 54", 38"x164ft.
- Expected outdoor durability up to 1-2 years. (Actual results may vary)
- Adhesive Permanent grey solvent/acrylic.
- Release liner 86lbs.
- Final tack 48 hours.
- Compatibility: Use with Solvent, Eco, UVC and Latex printers. (A pretest is always recommended.)

Properties: The product offers a Gloss or Matte print surface and grey acrylic adhesive, great for mostly flat applications where block-out is required.

Installation: Product offers a pigment permanent adhesive. Application fluid may be required for bubble free application to smooth surfaces, such as metal.

Handling: Avoid touching material or introducing dust and dirt on to print face. This can cause anomalies and artifacts when printed. Always store unused material wound tight in original packaging.

Printing: Suggested Media Setting Universal Self Adhesive Vinyl. Depending on printing platform and RIP software; the suggested maximum ink load is 300%. Make sure that ink is dry when it reaches the take-up reel. An external dryer, fan and or heat lamp will accelerate drying. For Roland printers with adjustable pinch rollers, use one edge pinch roller on each edge and two in the middle of the material.

Extreme heat can cause material to buckle. For best results calibrate media feed and bi-directional adjustment and test for optimum heater settings before using. 540 dpi, 8 pass offers a good balance between quality and speed.
