

Holographic Rainbow Film

DAF Light Diffracting Holographic Rainbow Film is a 4-mil thick Special Effect Printable PSA Vinyl.

Key Features & Benefits

- Surface: Special Effect Rainbow PVC
- Roll Put-up: 60"x164'. Converting available for smaller put-ups.
- Adhesive: Clear Permanent solvent/acrylic
- Release liner 140gsm Double PE coated Silicone Paper.
- Final tack 48 hours.
- Compatibility: Use with Mild & Eco Solvent, UVC, UVGEL, Latex and Screen.
- Easy Friction Feed Cutting.

Applications: Great for mostly flat surface medium term Interior and short-term exterior use for Promotional Decals, Signs and Retail Displays. Apply to packaging substrates for brilliant labels.

Installation: Make sure the surface is clean and dry. With the adhesive exposed work product onto receiving surface with particular attention to low points. Use Rubber Roller, Felt Squeegee, or another appropriate applicator. Rounded corners will help avoid edge release. Avoid highly textured surfaces.

Longevity (normal conditions): Interior 2 years+; Exterior up to 1 year - Zone1.

Handling: Avoid touching print surface or introducing dust and dirt onto print face. This can cause anomalies and artifacts when printed. Always store unused material tightly wound in original packaging.

Printing: Suggested Media Setting: Universal Self-Adhesive Vinyl. Make sure that ink is dry when it reaches the take-up reel. An external dryer, fan and or heat lamp will accelerate drying.
